PROFESSIONAL SUMMARY

Results-driven Frontend Lead with 6+ years of experience in developing scalable, high-performance mobile and web applications. Expertise in React Native, React.js, TypeScript & app architecting. Proven ability to optimize application performance, enhance user experience, and implement security best practices. Skilled in leading teams, mentoring developers, and driving scalable solutions.

EXPERIENCE

GEEKYANTS INDIA PVT LTD

Frontend Lead | Dec 2023 – Current

- Architected and developed scalable, high-performance mobile and web applications, enhancing app efficiency, user experience, and security. Optimized app size, reduced bundle size, and implemented security best practices.
- Designed and implemented reusable components, established best practices, and integrated modern frontend development trends. Developed and automated CI/CD pipelines using Fastlane, GitHub Actions, and Bitrise. Reduced crash rates by implementing error monitoring with Sentry and Firebase Crashlytics. Led migration to the latest framework versions for enhanced stability and performance..

Senior Software Engineer | Dec 2020 – Nov 2023

- Developed scalable mobile and web applications, optimizing performance and enhancing user engagement. Collaborated closely with designers and backend teams to ensure seamless integration. Led and mentored a team of 2-3 engineers, driving best practices and efficient development workflows.
- Optimized app performance, enhancing responsiveness, reducing app start-up time, and enabling offline functionality, deeplink and app deployments.
- Contributed to open-source projects, including boilerplates and app clones (available on GitHub). Authored several technical articles and developed multiple proof-of-concepts (PoCs) to explore innovative solutions and best practices.

Software Engineer | Sep 2018 – Nov 2020

- Built React Native and React.js applications, ensuring scalability and optimal UX.
- Integrated third-party APIs, including Firebase and REST APIs, for real-time data synchronization, authentication, push notifications, and state management.

PROJECTS

HDFC | FRONTEND LEAD

July 2023 – Present

- Spearheading the development of HDFC's next-gen mobile app, leading a team of 4 frontend engineers.
- Architected and implemented secure, reusable components, integrating RASP security, Lookout APIs, and other security measures.
- Upgraded the app to the latest React Native version, following a Micro Frontend architecture.
- Integrated Dynatrace, DevRev, Firebase Crashlytics, and other third-party services for app monitoring.

EDUCATION

ASSAM UNIVERSITY

BACHELOR OF TECHNOLOGY IN
COMPUTER SCIENCE & ENGINEERING
2014-2018 | Silchar, Assam
Cum. GPA: 7.64 / 10.00

TECHNICAL SKILLS

- React Native (Android & iOS)
- React.js, Next.js
- JavaScript (ES6+), TypeScript
- HTML, CSS

TOOLS

- Git/Github, Bitbucket
- Linux
- Figma, AdobeXD
- ESLint, TSLint, SonarLint

PERFORMANCE & SECURITY

- App Performance Optimization
- Lazy Loading, Code Splitting
- Firebase, Dynatrace, RASP Security

STATE MANAGEMENT

- Redux, MobX, Context API

DEVOPS & CI/CD

- GitHub Actions, Bitrise, Fastlane
- App Store & Play Store Deployments

CLOUD & BACKEND SERVICES

- Firebase, AWS Amplify
- REST APIs, GraphQL

APPS ON STORE

- HDFC Mobile App (Current project)
- Darden Restaurant App
- Khatabook Business App
- Sprive Mortgage Repayment App
- MPL Gaming App

CERTIFICATIONS

Java and Ethical hacking
Python programming
IEEE workshop on Signal processing

DARDEN | FRONTEND LEAD

Nov 2021 – Jun 2023

- Led a 11-member frontend team, driving architecture, development, and best practices in React Native & Next.js.
- Designed and implemented a monorepo architecture, enhancing cross-platform code reuse and development efficiency, leveraging native-base as the UI component library and MobX for state management.
- Improved app startup time and rendering speed, integrating native bridges and optimized animations.

BALANCE | SENIOR SOFTWARE ENGINEER

Nov 2020 – Oct 2021

- Developed payment processing mobile app using React Native, ensuring seamless UI/UX with RN-elements & RN-paper.
- Implemented biometric authentication, transaction history, referral program, and Stripe-based payment integration.

KHATABOOK | SENIOR SOFTWARE ENGINEER

Jan 2020 – Oct 2020

- Led a 3-member frontend mobile team, streamlining CI/CD pipelines for automated App Store & Play Store deployments.
- Developed an admin portal using React.js & GraphQL(where an admin can perform crud operations for all users, view their uploaded documents, approve/reject their KYC), boosting Lighthouse score from 70 to 95+, enhancing performance & SEO.

SPRIVE | SOFTWARE ENGINEER

Mar 2019 – Dec 2019

- Worked as IC in developing a mortgage repayment application using react native, redux and firebase following best coding practices. Integrated complex third-party - Truelayer, sentry, re-animated for handling complex animations, and appstore and playstore deployments(using bitrise).
- Interacted with design and backed team for optimised approach and seamless delivery of the product.

MPL | SOFTWARE ENGINEER

Oct 2018 – Feb 2019

- Involved in developing reusable UI components(w.r.t AdobeXD), integrating REST api's, firebase services and state management for Dashboard, profile, leaderboard and referral flows.
- Developed reusable UI components, optimized FlatList for large datasets, and integrated push notifications using OneSignal.

ACHIEVEMENTS

Scholarship on securing 10 cgpa in matriculation

Certificates for various elocutions

Regional level player in Cricket(Auslympic 2017), Chess, and Table-tennis
